

NATIONAL HAEMOSTASIS UPDATE (NHU 2020 VIRTUAL)

Organised by: Indian Association for Haemophilia and Allied Disorders
Date: 26th & 27th September, 2020

Dear colleagues,

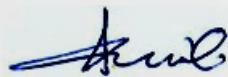

The Indian Association for Haemophilia and Allied Disorders (IAHAD) is conducting the 10th National Haemostasis Update – [NHU 2020] meeting virtually on the 26th & 27th of September, 2020.

As in the past, this meeting aims to bring together healthcare personnel involved with the care of people with haemophilia and similar bleeding disorders in India to discuss the current state of haemophilia care in the country as well as the advances taking place in this field in the world. Even though the virtual meeting format does not allow the close interaction of a physical meeting, the advantage is that many more people can attend. We therefore hope that all the members of the multidisciplinary team at each centre will take advantage of this and participate in this meeting. We have therefore made the registration free.

The scientific program, which has been put together by Dr. M. Joseph John and Dr. Chandrakala S, covers a wide range of subjects which will address basic management of these patients as well as some of the recent advances. We are sure you will find this conference an academically enriching experience which will help with the care that you provide your patients.

In case you require more information about these meetings, please send an email to meetings@iahad.org.

We look forward to meeting you within this virtual platform.

| 02:00 - 02:20 PM | Web based data collection | Dr. Aby Abraham |
| 02:20 - 02:30 PM | Q & A | |
| 02.30 - 02:35 PM | Closing Remarks | Dr. Shashikant Apte |

Virtual Meeting Platform Navigation

Kindly login with the credentials provided to you in your email. In case you have not received the same or have any doubts, please write to meetings@iahad.org.

We also have a live Chat facility available in the lobby area with our conference representatives to guide in case any assistance is required.

Once you login, you will be able to see the virtual lobby with exhibit booths and navigate the platform which has been specifically created for this conference. You will be able to perform the following on this virtual meeting platform.

- ◆ **Conference Schedule**

Click on this 'AGENDA' to download the program book.

- ◆ **Information Desk**

In case of any technical queries or general queries about the meeting, program etc., you can chat with our staff who will be happy to assist you.

- ◆ **Conference Hall**

Through this link, you will enter the scientific hall of the meeting. The presentations will be visible once you click on the backdrop in this hall.

Please maximise the video for better experience and to see the presenting speaker.

You can ask questions by clicking on the button "Q&A" button once in the virtual conference hall after the talk has started. The chairs of each session will address your question to the speakers, who will answer during the Q&A according to the program; depending on the time in hand.

FYI: Once you've clicked the expand button to view the presentation screen and stream the video larger, the "Q&A" button might no longer be viewable.

- ◆ **Exhibit Booths**

To visit your choice of booth, you will have to click on that booth, and you will be able to view videos & brochures that the respective companies would have made available from their end.

If the exhibitor is available online, you will be able to chat with them as well.

- ◆ **Networking Lounge**

You can click on this link to chat with your colleagues, associates or people you want to establish contact with. You will only be able to chat with the people who are present in the networking lounge at that particular time.

To exit, simply close the window and login again whenever you want to join back, following the above-mentioned steps.

Generic Information

- ◆ Please login with a Laptop (for better experience), using Google Chrome browser with good and stable internet connection (broadband recommended).
- ◆ Kindly ensure you have a stable and good internet connection.
- ◆ You should join with computer audio. In case you do not get the sound, go to Sound setting on the presentations window, click on Leave Computer Audio and then re-join with computer audio.
- ◆ In case, you are still facing any audio and video issues after joining, please log off, refresh the page and re-login.
- ◆ In case of any clarifications or assistance with regard to accessing the virtual meeting platform, kindly get in touch with Mr. Jagpreet Singh (+91 98186 81141 / jagpreet.singh@elisyan.in).
